

Strategy Overview

This strategy targets between 10-15 ETF positions and focuses on generating dividends and income. It can invest in any exchange traded asset class and is not restricted by market cap, sector, or geographic location. Based upon MACROCAST™ indicators, this strategy may hold a substantial fixed income or cash position.

Investment Process

We feel that being truly tactical means having the ability to move to any sector, company size, geographical location, or industry based upon the market cycle. Corbett Road’s proprietary research vehicle, MACROCAST™, serves as the foundation for the risk allocation across all of our managed strategies. The MACROCAST™ Score and its trend, work to assess if market conditions are favorable or unfavorable for risk assets.

How is the MACROCAST™ Score determined?

V	Valuation
I	Inflation
T	Technical Analysis
A	Aggregate Economy
L	Liquidity
S	Sentiment

Corbett Road examines data across 6 categories (the VITALS) that we believe impact market conditions. Within the VITALS, we look at more than 20 specific indicators that drive the MACROCAST™ Score. These indicators are then assessed and classified as signaling a positive (+1), neutral (0), or negative (-1) trend. The final MACROCAST™ Score is the result of the summation of the classified indicators.

MACROCAST™

Asset Class Weighting and Top Holdings

Asset Allocation	%
Large-Cap	11.1
Mid-Cap	4.9
Small-Cap	3.3
REITs	3.6
